Experience

Mobile Engineer — Larkspur Payments

Sep 2020 – Present

- Shipped the React Native wallet app to 250,000 users with a 4.8 store rating.
- Built offline-first sync with SQLite and background queues, reducing failed payments by 22%.
- Designed the shared component library used by 3 mobile squads.
- Worked on the release pipeline with GitHub Actions and Fastlane.

iOS Developer — Pinecrest Studio

May 2017 – Aug 2020

- Developed 9 client apps in Swift and SwiftUI for retail and hospitality brands.
- Improved app startup time by 45% by deferring non-critical work.
