About me

I am a frontend developer who loves building beautiful user interfaces. I have worked with many technologies and I am always eager to learn new things and grow as a developer in a team that values quality and collaboration and where I can contribute my skills to meaningful products that help people every day.

Work experience

Frontend Developer at Copperline Logistics, 2022 - 2024

I was responsible for the customer portal. I worked on many React components and helped with the migration to TypeScript. I was also involved in meetings with designers and I participated in code reviews.

Intern at Pinecrest Studio, 2021 - 2022

I helped with the company website using HTML, CSS and JavaScript.

Education

Front-End Development Certificate — Harborview Coding School, 2021

Skills

React, TypeScript, HTML, CSS, Git, Figma
