

Priya Raman
Platform Engineer · Austin, TX
priya.raman@folderit.net · <https://priya-raman.folderit.net>

Summary

Platform engineer focused on Kubernetes, infrastructure as code and developer experience.

Experience

Platform Engineer — Copperline Logistics

Jan 2019 – Present

- Designed a Kubernetes platform on AWS hosting 85 services across 4 regions.
- Codified all infrastructure in Terraform, reducing environment setup from 2 weeks to 40 minutes.
- Introduced OpenTelemetry tracing and Grafana dashboards, cutting mean time to recovery by 55%.
- Standardized CI/CD templates used by 22 teams.
- Led incident reviews and wrote the on-call handbook.

Systems Administrator — Ostrander Retail Group

Jun 2015 – Dec 2018

- Maintained 300 Linux servers and automated patching with Bash and Ansible.
- Migrated on-premises file storage to S3, saving \$60k per year.
